metal detector

MDC11

Equipment

- Digital electronics with alphanumeric graphic display
- 3 levels password access protection
- Principle of operation: digital with bidimensional image
- Working multifrequency
- 100 storable product programs
- One RS232 C serial port
- Phase adjustment function
- Function and process alarm output
- High immunity to environmental interferences
- Fail-safe mode
- Very high sensibility to all magnetic and not magnetic metals, stainless included
- Separated electronic equipment
- High productive flow
- Total printouts
- Automatic balancing
- Self-check function
- OK pcs. and rejects totalizer
- Report archive
- Date/Time function
- Automatic product compensation (Tracking)
- In conformity with ISO - FDA - HACCP - GMP regulations
- Production data management in conformity with the standards in force

Optional

- Products programs memory expansion
- Alarms notification
- USB interface
- Ethernet interface
- FAT/SAT, IQ/OQ validations

Technical Specifications MDC11

Power supply	230V 50/60Hz single phase
Power consumption	200 W
Mirror finishing of metal parts	Stainless Steel IP54 - IP65
Climatic environment	from 5°C to +40°C non-condensing (closed)
Regulations	Conformity with CE regulations and with international standards for Electrical Safety and Electromagnetic Compatibility

Products passage diameter
Ø 130
Ø 150
Ø 210
Ø 240

The manufacturer reserves the right to change the product specifications without notice. The image and the drawing are indicative of one of the possible configurations of the machine.
